HUNTING HIGH AND LOW

IN THE NORDICS

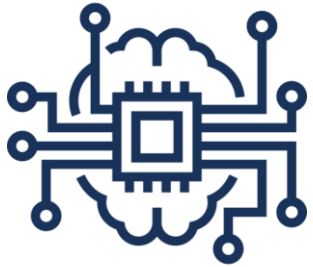

An underwater photograph showing sunlight filtering through the water's surface, creating a shimmering, dappled light effect. The water is a deep blue color, and the light rays are visible as bright, irregular shapes. A large, light blue circular graphic is overlaid on the right side of the image, containing the text.

Cleantech member:

Why we choose to invest

«Evoy eliminerer utslipp fra båter verden rundt med elektrisk fremdrift.

Evoy (forkortelse for Electric Voyage) leverer hel-elektrisk fremdrifts system til nye og brukte hurtiggående båter.

Typisk vil båtene være mellom 20 og 30 fot og ha installasjoner på mellom 100 og 250 kW (135 til 330 hk).

Gjennom tett samarbeid tekniske samarbeidspartnere så vil vi kunne levere turn-key systemer som er stillegående, rene, bærekraftige og økonomiske».
